

Brighton Concurrent Enrollment

What Is Concurrent Enrollment?

Concurrent Enrollment classes are college courses taught at the high school by certified college instructors that involve increased rigor and student engagement. To participate, students must pay \$5 per credit tuition and textbook costs for some classes

Students will receive high school credit and college credits on a permanent transcript.

What Is Advanced Placement?

Advanced Placement classes are college-level courses with a national exam administered at the end of each course. A passing score on the final exam can either earn college credit or waive introductory-level college courses.

There is a fee for each exam.
