Chair Opening Comments

Kimball High to take meeting minutes today
Opportunity to sign up for committees are on the paperwork
Motion to approve today's Agenda: Mariaanne Sherawain, 2nd: Ernest Pulliam
Voting: Unanimous

Motion to approve minutes from last meeting: Hailey Watanabe 2nd Kim Steenblik
Voting: Unanimous

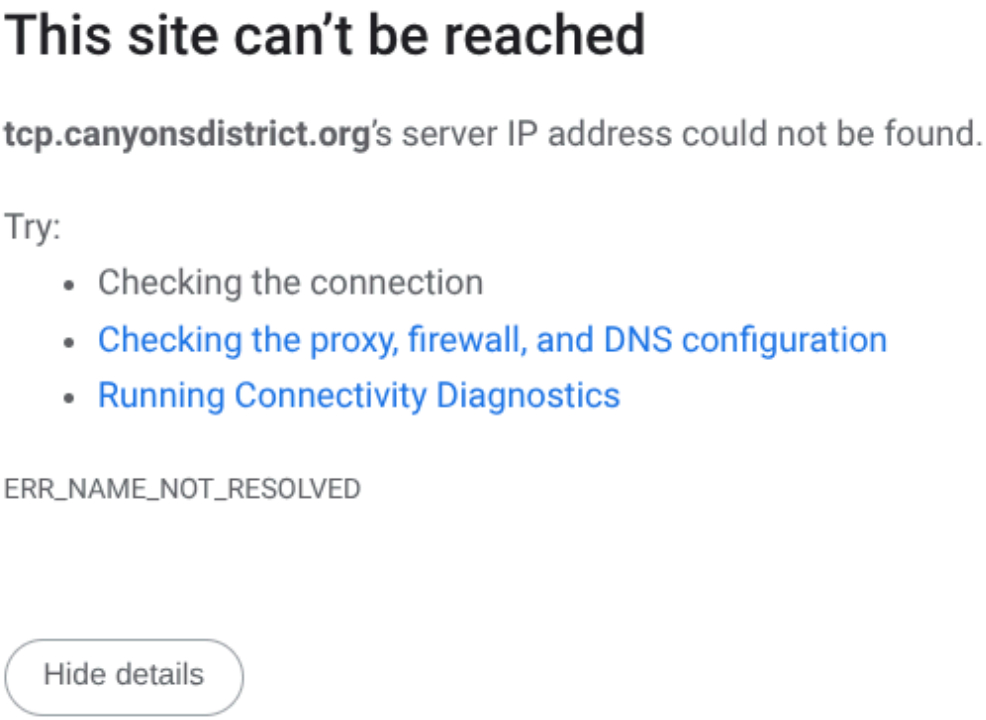

District training notes:

1. We need to amend the bylaws from up to # of people on the bylaws, need to have exact number of members on the committee.\
   Debate on bylaw adjustment, ideal member size, rolling schedule, min-max members count, clarification on rule as delegated by state, not Canyons District.
   Motion to amend bylaws to include 13 members of the SCC for 2026-2027, 2nd Tyson Grover.
   Vote: Unanimous
2. All volunteers on the SCC MUST be registered as volunteers in Canyons School District system (required to show ID for entry to school grounds - state policy)
3. Reminder that all persons entering school buildings must show ID.

4. Plans/Goals - no vague terms will be allowed, must use defined purposes on goal language.
5. TSSP cap of $4 per student on incentives.

Digital Citizenship

Digital Citizenship - Marissa Merket w/2 videos on digital citizenship
Parents can review their students history and adjust the permissions at TCP.canyonsdistrict.org (although testing of this site during the meeting resulted in IP error.)

Conversation on digital citizenship included:
Student search history is recorded & school administrators are aware of inappropriate search history, school filters (whether they are appropriate for school use, filter strength), device registration, TCP site performance, game usage, personal (phone) device workarounds.
Teacher use of cell phone pouches, LanSchool Air, Data Dashboard, cell phone use during APP period (problematic).

Recommendations to improve the Digital Citizenship

TCP site not working on and off Canyons wifi (see error)
Chromebooks are not automatically registered on parent sites
School site should have a link for Digital Citizenship management
High School Restriction - not viable for families with HS students to have a tighter restriction due

to teacher white-list lesson planning, required class participation etc. (It was discussed for teachers to use LanSchool Air to manage sites)
No cell phone policy during APP is not in-force. - Principal Rawle to discuss this with the BLT.

Does SCC feel it has received enough info about the school's plan to help students make safe, responsible, and informed choices? - Voting: All Yea's
Does the SCC believe the school has a viable plan to provide parents and families with information and resources about digital citizenship? - Voting: All Yea's

Mayor and members of the City Council slated to attend next month's SCC meeting. Any items we wish to discuss with the city should be added to the agenda.

- Northbound Highland slip-lane removal
- Double left turn lane going West on Bengal (trail included)
- Westbound slip-lane onto North Highland Dr closures
- HAWK light at the intersection of Butler Hills Dr

Principals Report

We will go over LandTrust and TSSP goals in December meeting (possibly Jan)
Parent Teacher scheduling thru ParentSquare.
Feedback?
Pros: Easy to make a single appt with a single teacher, most teachers were in the same block of time, custom duration by teachers, conferences earlier in the school year.
Negatives were, too many emails, cannot see full teacher schedules, got multiple reminders & messages (overwhelming amount), compounded for parents with multiple kids in multiple schools, abilities to book the same time with multiple teachers, teachers sent invites on the wrong dates, length of time slot to address student needs.

Celebrations:

Girls XC won region - shot to win State
Boys XC took 3rd in region
Shakespere took 2nd place, Ensemble for 12th Night took 2nd
Readathon
Marching Band showcase - incl UofU marching band attend
Boys Golf won 2 region tournaments this year (1st time in 5 yrs)

PTSA Report

Asked for feedback on opinion to minimize # of messages that go out school wide. Is it unwanted to have a single group message to be distributed community wide?

Faculty Report

Direct relation between performance and attendance, please encourage your student to attend class

Counseling Center Report

College application week -
Students were required to go to the college meet-n-greet, and not go to APP.
CCR meetings are going out

Guest Remarks

Max Clark-Bradley: Readathon, crosswalk in front of the arts building, & new start time has impacted traffic due to crossover w/Butler, DigCit phones during APP - wants phone use during APP, filtering.

Conclusion

Motion to adjourn: Kimball High, 2nd: Jackie Ricks
